Miratray® Implant

Implant impression tray with foil technique

- Saves you and your patient an additional patient visit and laboratory cost
- Controllable and safe impression taking with clear view of implant posts
- Clean impression is taken as foil meets precisely at implant posts
- No overflowing impression material
- Customisable, user-friendly and cost-effective
- Available in three sizes for maxilla and mandible (dentulous and edentulous)
- Suitable for all implant impression materials and implant systems

Article	Size	Content	REF
Intro Kit 6 x 1 piece (Upper/Lower jaw small, medium, large)			101 250
Upper S1	small	6 pcs.	101 251
Upper S2	medium	6 pcs.	101 252
Upper S3	large	6 pcs.	101 253
Lower I1	small	6 pcs.	101 254
Lower I2	medium	6 pcs.	101 255
Lower I3	large	6 pcs.	101 256

The novel impression tray with patented foil technique is a development of the team Prof. Dr. Spiekermann and Dr. Haselhuhn (University Aachen, Germany) and Dipl.-Ing. K. Reimers (TH Aachen). An individual impression tray in a matter of seconds, high-precision and big cost savings, without laboratory.

Small (W x H x D):
4 x 1.9 x 4 cm

Medium (W x H x D):
9.5 x 2.3 x 9.5 cm

Large (W x H x D):
14 x 7 x 9 cm

Stackable

Membranbox

Transport and storage box with inside membranes

- Two membranes hold the contents visible and careful in place
- Safety lock
- Long durability by high-quality material
- No rattling, two membranes are fixing the smallest parts absolutely careful

Description	REF
Large: For 1 model denture, larger objects etc.	304 601
Medium: For bridges, partial dentures etc.	304 602
Small: Set of 12 for crowns, inlays etc.	304 603

Inner dimensions:
(W x H x D): 19.2 x 4.8 x 9.2 cm

Membranbox XXL

- For two dentures
- Stackable

Description	REF
Membranbox XXL	304 605

Carat®

Metal ceramics for the highest aesthetic demand

- Strong adhesion to all commonly used alloys, very good modeling properties, high stability as well as form and contours stability
- Excellent shade combination with single compounds due to naturalness and degree of transparency of the dentin and glaze masses
- Reliable physical characteristics
- If space is restricted, an opacious dentine will also provide an exact color

Basic assortments available upon request.

With our **Intro-Kits** you have the possibility to pile up a color from the basic mass up to the brilliant firing.

Contents: Biopaque UN color paste (in VA 3, VA 3.5, BIO 21 and BIO 31), opaque fluid, litter crystals transparent, the respective dentin, opaque dentin and glaze masses, transpamass T, glaze mass, modeling fluid UNF and insulating fluid.

Carat® MP Mass Portioner

Adjustable dosing instrument

- For the gramme-precise dosing of ceramic powders
- Four units: 0.1 g, 0.2 g, 0.4 g and 0.8 g
- Material: Hardened stainless steel with titanium nitride coating

Description	REF
Carat MP	304 028

Carat® Glass Mixing Plate

Glass plate for the mixing of ceramic compounds

- Size: 12.5 x 8 cm

Description	REF
Carat Glass Mixing Plate	604 211

Carat® Biopaque® – Premixed

Ceramic compound with powdering crystals

- Base and color pastes in a spreadable consistency
- No mixing, condensing and blotting necessary
- Powdering crystals result in a thin, even layer
- Excellent color brilliancy and natural light reflection due to the powdering crystals
- Available in Biodent and V colors in syringes

Description	REF
Low cost Test Kit (A3) (1 color A3 + crystal-scatter bottle + funnel crystal collector)	604 518
9-color-set in syringe form (A1/A2/A3/A3,5/B2/B3/C2/D2/D3)	604 568

Color shade fluid E, 100 ml	604 220
Color shade fluid O, 15 ml	604 221

Carat® Ecoline

Time saving, easy handling for all standard works – does not require any specific techniques

- Simple and clear assortment: 16 dentins in VIT colors, 5 enamels and 1 overglaze powder
- Very good compatible with all VIT colors
- Suitable for all high fusion alloys, especially for all standard non-precious alloys
- The "forgiving" material: Outstanding thermal stability and it tolerates for example unstable temperature during firing process
- Can be combined with the colors, shoulder materials and other accessories of the Carat system

Orbatec® Ceramic Oven

Proven microprocessor-steered ceramic oven 220 V

- High-performance 16 bit microprocessor
- Easy-to-handle input decoder for all functions
- "Flash-Type-Memory" for online updating
- Big, blue illuminated LCD display for a clear view of the program guidance
- 79 individually adjustable programs (incl. 15 sub-functions per program for the precise control of the vacuum and the cooling speed)
- Suited for any ceramic mass

Technical data:

Size (B x H x T):	39 cm x 51 cm x 44 cm
Weight:	25 kg
Voltage:	220 – 230 V (AC)
Power:	1050 W
Pump power:	(max.) 500 W
Fuse protection:	10 A
Max. temp.:	1200 °C
Grades:	2 – 200 °C
Programs with auto-calibration:	79

Vacuum pump oil-free	401 162

Ceram-Brush "K"

Modeling brush for ceramics (size 8) - pictured

- High quality "pure-Kolinsky" modeling brush
- High resistance, long life brush
- Firm and fine brush end with high spring action
- A modeling brush for the highest demands
- Short, black painted handle with silver clamp

Description	REF
Ceram-Brush K (size 8)	304 213

Mira-Brush Ceram

Acrylic hair brush for ceramics

- Long lifetime, tapering form
- High reset- and spring action
- Available in 10 sizes

Dipol®

Proven wetting agent for all phosphate and plaster investment materials

- For exact and clean surface
- Wax-degreasing, reduces the surface tension of wax
- Dipol builds a molecular bridge between water-repellent wax and investment compounds which can flow bubble-free and accurately adapting to the wax. Clean, smooth surfaces
- It contains no delaying chemicals which can lead to rough surfaces
- Dipol is also suited excellently as wetting agent on impressions of silicone, polyether etc. for a trouble-free outpouring with plaster
- Free of formaldehyde and alcohol
- Pumping atomizer with micro fine spray fog

Description	Content	REF
Set with 1 l bottle (1,000 cc) + 1 pump bottle (empty)	1 liter	605 044
Pump bottle (filled)	100 ml	605 043
Pump bottle (empty)	(leer)	605 045

Big: 1,000 cc bottle (full) comes with pump bottle small (empty)

Mirapor®

Isolates plaster from plaster

- Without any film build-up, not silicon binding
- Exact, very simple separation
- Plaster parts release without aid
- Surfaces are sealed against dirt and water
- Plaster surfaces can be polished brilliant with a brush or a cloth
- Without fuel gas, formaldehyde-free

Description	Content	REF
Set: 1 l bottle (1,000 cc) + 1 pump spray bottle (empty)	1 liter	605 113
Pump spray bottle (filled)	100 ml	605 119
100 ml pump spray bottle (empty)		605 114

See page 27 – Mirawet liquid for plaster

Mirapont®

A pale, highly exact special plastic for stumps, hard plastic models and single teeth

- Very thin and slightly fluent material
- Both liquids (components A and B, relation 1:1) are mixed within 30 sec
- Can be poured into silicone, alginate, reversible hydrocolloids and thermoplastic
- After 90 min. it can be sawed, milled and polished

Description	REF
Mirapont 500 g (small starter set) Contents: 250 g liquid A, 250 g liquid B, 2 dosage bottles A and B, 200 ml Agent Plus, 100 g Silifit, 5 measuring mugs, 1 mixing mug with pouring spout, 2 big mixing spatulas, 5 small mixing spatulas, one-way gloves	203 010
Mirapont 1,000 g Contents: 2 x 250 g liquid A, 2 x 250 g of liquid B, 2 dosage bottles A and B, 200 ml agent plus, 100 g silifit, 5 measuring mugs, 1 mixing mug with pouring spout, 2 big mixing spatulas, 5 small mixing spatulas, one-way gloves	203 011

Mirapont® Agent Plus

- Isolates Mirapont against wax
- Isolates polyether and polysulfide materials against Mirapont

Description	Content	REF
Mirapont Agent Plus	200 ml	203 016

Mirapont® Silifit

Special block-out material, kneadabler

Description	Content	REF
Mirapont Silifit	250 g	203 015

Mirabol®

Green, flexible mixing bowls

- Easy to clean, for Alginat, gypsum etc.
- Special high-quality, flexible material in three dimensions / heights available

Description	Ø	Height	REF
Nr. 1 (large)	12 cm	9 cm	304 331
Nr. 2 (x-large)	13 cm	11 cm	304 332
Nr. 3 (jumbo), dark green	17 cm	13 cm	304 333

Mirabol® Spatula

Plaster and alginate plastic mixing spatula

- Optimal angle, ergonomic handle

Description	REF
a) Mirabol Spatula (white)	304 316

Plaster Spatula RS

Solid stainless steel spatula with plastic handle

Description	REF
b) Plaster-Spatula RS	304 314

Miracast®

Model former

- Vertically elevated retention marks
- Low-priced, available in 3 sizes for uppers and lowers

Description	REF lower	REF upper
Miracast, small	203 066	203 065
Miracast, medium	203 067	203 068
Miracast, large (fits lower + upper)		203 069

Koni-Cast

Casting rings in conical shape

- High quality stainless steel
- Height 55 mm, in 4 sizes
- X1:** small ∅ on top 32 mm, ∅ below 30 mm
- WM:** (for Whipmix) ∅ on top 40 mm, ∅ below 38 mm
- X3:** ∅ on top 50 mm, ∅ below 48 mm
- X6:** ∅ on top 67 mm, ∅ below 65 mm
- Bigger forms available upon request
- Also available silicone bases or the flexible multi base for all rings (not pictured)

Description	REF
X1	304 031
WM	304 032
X3	304 033
X6	304 034
Basis X1 (Bene silicone)	304 035

Basis X3 (Bene silicone)	304 037
Basis X6 (Bene silicone)	304 038
Multi-Base fitting for all sizes	304 039

Non-Stick

Special silicone spray

- Isolation, protection and care spray
- Essential for the care of articulators
- Condyles, balls and all movable parts are gliding very easily
- For the surface isolation of precision norm maters against plaster
- Prevents sticking of plaster on trimmers, flasks and elastic layers etc.
- Makes door and devices hinges smooth running

Description	Content	REF
Non-Stick	400 ml	554 206

Konoval

Casting rings in oval shape

- Oval form guarantees that the warmth achieves the model steadily from all sides
- For an optimal casting quality
- High saving of time by steady cooling down
- Approx. 50 % saving of invested compounds
- In two dimensions with suitable base available:
- Normal: H 55 mm, B 20 mm, L 40 mm
- Large: H 55 mm, B 30 mm, L 40 mm

Description	Size	REF
Konoval, casting ring	normal	304 050

X6	55 mm	65 mm	304 056
X9	55 mm	75 mm	304 057

Miratorch®

Low-priced small dental burner for dentist and lab

- Small, handy burner (170 g)
- Easy setting and regulation of temperature and flame, variable adjustable
- Burner temperature 1,300°C, burning time approx. 60–70 minutes
- Refillable with APT Gas

Description	Content	REF
Miratorch	–	401 010
APT Gas	200 ml	605 143

Armatron Pro

Convenient burner for one-hand operation

- Activation of the ignition with the hand heel
- Unique, extra reliable ignition system
- Variable adjustable flame from approx. 800–1.300 °C
- Mobile handling allows working with the flame upside down
- Refillable with APT Gas (see above)

Description	REF
Armatron Pro	401 002

Kisag Burner (classical Swiss burner)

Gas burner for practice and lab

- Flame temperature adjustable from approx. 750–1,150 °C
- One filling for 5–6-hour burning time
- With the Swiss approval SVGW (conform to GS signs)
- Refill with Kisag Gas only

Description	REF
Burner incl. 400 ml Kisag Gas	401 005
Kisag Gas, 400 ml	605 140

Blue-Flame 1500

Handy burner for practice and lab, classical model

- Simple, practical one-hand operation
- Automatic and dependable ignition
- Stable freestanding burner, only 15 cm small
- Flame also in the temperature variable adjustable from approx. 800–1.300 °C, max. burning time approx. 35 minutes
- Refillable with APT Gas (see above)

Description	REF
Blue-Flame 1500	401 006

Solderfix – The third hand

Soldering aid

- Two holding arms with ball joints allow an optimal positioning of the objects to be soldered
- The base plate is equipped with a fire-resistant and asbestos-free fiber glass plate
- Measurements: 230 x 152 mm

Description	REF
Solderfix	304 451

Vernax® Colloidal Graphite

Special graphite in liquid form

- With integrated brush easy to apply
- Solder does not flow about the graphite limitation
- No lunker building within the joint
- Makes telescope and conical crowns move smoothly
- Diluteable with water

Description	Content	REF
Bottle with brush	20 ml	605 069

Artiholder

Occlusion paper holder

- Straight execution (Miller tweezers)
- Stainless steel

Description	REF
Artiholder	355 300

Cerami-Cut

Ceramic discs

- Very thin blades with 22 mm diameter
- Available in two thicknesses
- Box with 25 pieces each

Description	Thickness	Ø	REF
Cerami-Cut I	0.38 mm	22 mm	503 300
Cerami-Cut II	0.22 mm	22 mm	503 301

Corund SC

Long-lasting grinding material

- In the grain sizes 80 – 220
- The sharp grain preserves long and abrades slowly
- On 15 mm wide roles, used with slot-mandrills

Description	Length	Grain size	REF
Corund SC Nr. 80	25 m	80	605 016

Corund SC Nr. 220	50 m	220	605 021

Vernax® 100

Insulating varnish, 100% of fine silver for stumps etc.

- Standardized grain size, shake before use
- Absolutely steady film of 8 – 10 µm (1 layer)
- Can also be applied in several layers
- Indissoluble against all isolating agents and evaporation
- Heat-proof during the deep drawing and by the use of diving wax
- Quick-drying
- Can be cleanly removed with acetone
- Recommended for full ceramic inlays and crowns etc. (e.g., Empress, Ivoclar)

Description	Content	REF
Bottle with brush	20 ml	605 063

Vernax® Antagon

Flimsy protection varnish

- For hardening of plaster surfaces (e.g. antagonists)
- Coat thickness approx. 3 – 4 µm
- Scratch- and wear-resistant
- Transparent and very quick-drying
- Also as the first layer under Vernax 100, Vernax S and Vernax G

Description	Content	REF
Pinselflasche	20 ml	605 067

Vernax® S/Vernax® G

Insulating varnishes for stumps etc.

- Silver- and golden-colored
- Even film of approx. 10 µm
- Contains metal powder of standardized grain size
- Indissoluble against isolating means and evaporation
- Heat-proof during the deep drawing and by the use of diving wax
- Quick-drying

Description	Content	REF
Vernax S (silver), bottle with brush	20 ml	605 065
Vernax G (gold), bottle with brush	20 ml	605 066

Vernax® Thinner

- Clear liquid to thin Vernax 100, Vernax S., Vernax G as well as Vernax Antagon

Description	Content	REF
Thinner	20 ml	605 068

Occlu® Spray Plus

High-quality green occlusion spray

- For marking of contact points by direct spraying onto the occlusion surface
- Micro powder coating for highest accuracy
- Metal nozzle for extra fine spray mist
- Powder layer can be easily removed with water
- Economic in consumption

Description	Color	Content	REF
Spray can	green	75 ml	554 205

Combitec®

Whole metal ARCON articulator

- Excellent prize and achievement relation
- Usable with other articulators
- Bennett angulation and condyle orbit inclination variable adjustable
- Immediate side-shift movement
- Centric lock
- No disintegration of the articulator by special 3-point mounting
- Corner stand for optimum position to the eye – removable
- Strong recall spring for the final bite registration
- Possibility for the work in open position
- Retrusion-and protrusion device optionally
- Mounting plates for Combitec A optionally – see REF 203 204

Technical data:

Intercondylar distance: 110 mm
 Condyle inclination: 10.5°
 Incisal plate: 0°
 Condyle orbit: 0°–40°
 Bennett angulation: 0°–40°
 Incisal pin with mm division as well as incisal indicator

Scope of supply:

Combitec articulator A
 Incisal plate: 0°
 Condyle inclination: 10.5°
 Intercondylar distance: 110 mm

Set Of Mounting Plates

Only for Combitec A

Balance

The classical NON-ARCON articulator

- Respectable, functional working device for complete and partial dentures as well as for crown and bridge works
- Worldwide the standard-Non-Arcon articulator
- Available in 3 construction heights: 95 mm, 105 mm, 116 mm (measurements without base plate)
- Joints and parts from stainless steel
- Torsion-resistant and free access to the model
- Extendable by numerous accessories as for example facial curve, foundation scales, calotte
- Mounting plates optionally (REF 203 204)

Technical data:

Condyle inclination:	25°
Incisal table:	5°
Bennett angulation:	0° bis 25°
Intercondylar distance:	100 mm

Scope of supply:

Articulator, incisal table, incisal pin, 2 mounting plates, rubber bands, Allen key

The balance is also specified with 20°, 30° or 40° condyles and available with 0°, 10° or 15° incisal plate

Description	REF
Balance 95	203 201
Balance 105	203 295
Balance 116	203 297

Mounting Plates

Aluminum with screw thread

Description	REF
Mounting plates, 1 pair	203 204

Balance De Luxe

The classical NON-ARCON articulator

- Individually adjustable condyle orbit inclination
- For individual preparations in full dentures as well as for crown and bridge technique
- Available in three construction heights: 95 mm, 105 mm, 116 mm (measurement without mounting plate)
- Joints and parts from high-grade steel
- Torsion-resistant and free access to the model, also from backwards
- Extendable by numerous accessories as for example facial curve

Technical data:

Condyle inclination:	-10° to + 70°
Incisal table:	5°
Bennett angulation:	0° to 25°
Intercondylar distance:	100 mm

Scope of supply:

Articulator with individually adjustable condyles, incisal table, incisal pin, 2 mounting plates, rubber bands, Allen key

Incisal table 0°, 10°, 15° separately available.

Combitec® Facebow

One hand facebow with fast lock

- For fast and precise cast transfer in the Combitec articulator
- Easy handling as the joints can be fixed by hand
- Optimal adjustment to the Frankfurter horizontal plane by a new type of horizontally and vertically adjustable Glabella support
- The transfer part with bite fork impression can immediately be transferred into our articulators (without facebow)
- An exact three-dimensional model assignment can be achieved in the articulator
- High-quality, flat aluminum carry case
- Precise foamed plastic insert for a safe transport

Set:

Scissor bow and Glabella support
Transfer set and bite fork

d.) Connection to Bien Air Unifix	401 076
e.) Connection to EMS-box	401 090
f.) Connection to lab unit	401 091

Airsonic® Mini Sandblaster

Handy sandblaster

- For roughening bonding surfaces of crowns, bridges, brackets, posts, etc.
- Thoroughly roughened bonding surfaces for optimal bonding of various materials
- Ideal for all metals and ceramics
- Also suitable for the removal of cement residues from crowns and bridges

Description	REF
Sandblaster with standard nozzle 60° and 20 g powder (50 µm)	401 080
Single 60° nozzle	401 086

Airsonic® Absorbo Box

Handy absorbing box – new model

- Portable dust collector – the abraded material remains in the box and is completely collected in the filter
- Very low-noise and high-performance device
- Solid and durable design
- Problem-free cleaning by removable filter

Description	REF
Airsonic Absorbo Box	401 082
Replacement filter separately	401 092
Replacement pane available on request	

Airsonic® Alu-Oxide

Aluminium powder for sandblasting

Description	REF
Airsonic Alu-Oxide, 50 µm, 500 g	605 084
Airsonic Alu-Oxide, 90 µm, 500 g	605 086

- No separate aspiration system required
- Ideal for working in combination with the mini sandblaster
- Size (W x H x D): 35.6 cm x 22 cm x 37 cm
- Weight: Only 2.8 kg

Equipment available on request.

Speed Labolight

Universal light polymerization device

- For all light-curing dental materials
- Nanometer spectrum 320–550 nm
- Optimized light mixture for a homogenous and safe curing
- Circular arrangement of eight rod lamps around a turntable (dia. 14 cm) and one halogen lamp
- Interval turntable for an evenly light impact and curing
- Adjustable from one second to 99 minutes, protection against overheating, polymerization temperature in the chamber does not exceed 40 °C
- Durable (approx. 1,000 hours), easy-to-exchange lamps
- Acoustic signal indicates end of polymerization
- Operating hours counter

Technical data

Supply voltage:	230 V, 50 Hz
Power consumption:	225 W
Fuse:	1 x 2.5 A
Lamps:	8 x 9 W T1 (white light) 4 x 9 W T8 (UV-A) 1 x 150 W (halogen)
Size (W x H x D):	250 x 290 x 240 mm
Weight:	7 kg
Turntable:	Ø 14 cm

Description	REF
Unit incl. 13 lamps	401 125

Separate single lam:

Description	REF
T1 (white light)	901 002

Set (4 x T1 and T8, 1 x halogen each)	901 001

Speed Multipol

Light and hot air polymerization device

For the extra-oral light and heat treatment of crown and bridge material on composite basis (e. g. Estenia)

Heat chamber

- Individually adjustable up to 180 °C
- Digital clock with countdown (1 second up to 90 minutes)
- Big polymerization chamber

Light chamber

- Digital clock with countdown (1 second up to 99 minutes)
- The end of the cycle is announced by an acoustic signal
- Overheat protection
- Low polymerization temperature
- Interval turntable / 2 x 250 W halogen lamps

Technical data

Size (W x H x D):	33 x 47 x 29 cm
Weight:	ca. 13.5 kg

Description	REF
Speed Multipol	401 121

Mirator 2000

Electronically adjustable vibrator

Technical data	Mirator 2000
Handy worktop:	Approx. 160 x 155 mm
Supply voltage:	220/240 V 50/60 Hz
Power consumption:	Max. 100 W
Safety fuse:	2 A
Weight:	3 kg

Description	REF
Mirator 2000	401 344

Praxipol PS

Pressure polymerization vessel

- Approx. 4 l content
- For hot and cold polymerization
- Incl. inlet valve, pressure gauge and safety valve (GS/TÜV approved)
- Nonstick layer inside to avoid corrosion
- Weight: Approx. 2.5 kg only

Description	REF
Praxipol PS	401 400
Additional hose with coupling, length: 2 m	401 401
Additional hose SP with ball valve, length: 2 m	401 402

Weight 300 g

Bravo Portable II

Strong portable micro motor

- Allows working without wall socket, ideal for house calls (weight 300 g)
- Rechargeable battery, recharging time six hours, rechargeability of batteries 500 x and more, approx. 8 hours pure working time
- Infinitely variable motor with backward- and forward-running of 0–25.000 rpm
- Suitable for any standard hand and contra-angles piece with plane shaft without intra-spray and without light conductor
- May be attached to the belt, space-saving
- Only for extra oral use

Description	REF
Motor, unit holder and recharger (220 V)	452 102

Fußanlasser

Drehstrommotor

Bravo TD III

AC Motor (3-Phase-Motor) – new case

- For all commercial handpieces and contra-angles with plane shaft
- Speed variable and precise adjustable from 1.000–30.000 rpm
- Forward and reverse rotation, with optic indication
- Solid, low-maintenance plastic body

Technical data

Supply voltage:	230 V
Motor capacity:	Max. 40 W
Size (H x W x D):	18.5 x 8.8 x 18.8 cm
Weight:	Approx.: 2.5 kg

Description	REF
Bravo TD III	452 106

Speedo-Clean®

Low-noise denture cleaning device

- Cleans surfaces using rotating polishing needles in combination with a cleaning liquid – no material abrasion
- Optimal cleaning as the needles reach every interdental space
- Integrated timer allows individual cleaning times
- Additional magnet keeps the needles in the container when replacing the liquid
- Autoclavable

Technical Data

Weight:	2 kg	Frequency:	50/60 Hz
Output:	35 W	Rotation:	1.700 rpm
Supply voltage:	230 V

Description	REF
McTooth mirror	707 094

Praxipolish® Plus

Cleaning foam for office and lab

- Additionally gives a satin shine
- Removes dirt, dirt rims, stains, etc.
- Bactericidal and disinfecting
- Fights all gram-positive and gram-negative bacteria, fungi and viruses reliably
- Effectiveness tested by the neutral German "Institute for Hospital Hygiene and Infection Control" IKI Gießen

Praxipolish®

Cleaning foam, classic since 40 years

- Removes dirt, dirt rims, stains, etc.
- Gives additional satin shine
- For devices, plastic and wooden surfaces, etc.

Description	REF
Praxipolish Plus, 400 ml	554 208
Praxipolish, 400 ml	554 207

Protho Clean®

Fully synthetic maintenance agent for the cleaning of acrylic resin dentures

- Upgrades the presentation of your prosthetic work
- For the removal of polishing agent and monomer residues from prosthetic work
- Spray on and wipe off with a soft cloth

Description	REF
Protho Clean, 75 ml	554 220

Orange-Solvent®

Cleaning solution on the basis of natural orange oil

- For the removal of impression pastes, zinc oxide cements, dispersion adhesive (stickers, labels) from instruments and hands
- Ideal for the cleaning of stainless steel
- Surfaces become shiny and are protected
- Can be removed with water, fresh orange flavor
- Non-toxic product on the basis of natural ingredients
- Available as solution and spray

Description	REF

Mirawet® (instead of tap-water)

Disinfecting mixing liquid for all kinds of pumice powder

- Keeps the polishing compound creamy all day long
- Excellent bactericidal, fungicidal and tuberculocidal effect
- Virus-deactivating, effective against HBV and HIV viruses
- Skin-protecting, pH-neutral
- Biologically degradable and free from formaldehyde

Description	REF
Mirawet, 5 liter (5 kilo)	554 105

Algilock® Cleaner Plus

Alginate remover

- Cleaning in immersion bath without mechanic impact, no ultrasound, no scratching, etc.
- Decomposes the organic structure of the material, no aggressive or caustic effect
- pH-neutral and bio-degradable, pleasant odor, phosphate-free
- Sufficient for approx. 500 trays

Removes plaster and alginates easily from impression trays, instruments and spatulas. No laborious and time-consuming cleaning, simply add 50 g to one liter of warm water and leave for approx. 15 – 30 minutes. Can also be used in an ultrasonic unit. Not suitable for aluminium trays.
